Interface Developer | React & Javascript

WordPress Elementor & SEO skillset

jonida.baci99@outlook.com

+355 (0) 69 471 8883

Tirana, Albania

A proficient front-end developer with experience in building web and mobile applications using **React Js/ Native**, **Vanilla JavaScript**, and various other modern technologies. Adept at designing, developing, and maintaining robust applications.

Experienced in working in **Agile** teams, collaborating closely with product owners creating user experiences and collaborating on high-quality solutions in dynamic environments. Additionally skilled in **UI/UX design**, with a solid foundation in **Figma** for mobile and web design projects.

Worked as a Wordpress developer, crafting and optimising web pages using Elementor and applying SEO principles.

## Professional Experience

Commit SRL (Dilaxia)

Web Developer

February 2022 — Present

- Developed and maintained both mobile and web applications using React (with frameworks such as Ionic), Vanilla JavaScript, **Vue.js**, and **Nuxt.js**.
- Worked with a range of UI component libraries such as **Kendo UI**, **Material UI**, **Ant Design**, and **PrimeFaces** styling using **Tailwind**, **Sass**, and pure **CSS**.
- Worked on the design, development, and testing of both new and existing projects, incorporating **RESTful APIs** for seamless communication between front-end and back-end systems.

YNAP (Yoox Net-A-Porter Group), Remote,  
Interface Developer

Oct 2023 - Jan 2025

- Developed and optimized web pages for **ARMANI.COM** and **MONTBLANC.COM** using Vanilla JavaScript, ensuring cross-browser compatibility and high performance.
- Integrated **CoreMedia** and **Algolia Search AI** tool to enhance content management and search functionality.
- Utilized **ASP.NET** and **C#** to build robust backend solutions.
- Worked in **Agile** environments, ensuring continuous delivery of high-value features through iterative development and regular feedback cycles, participating in PI Planning, Sprint Planning, Daily Stand-ups, and Retrospectives to align business goals.

Wordpress Developer  
Intermedia.al

2021-Present (As Freelancer)

- I worked with WordPress to create and maintain websites, using Elementor builder and custom HTML & CSS.
- My responsibilities included conducting SEO audits, managing plugins, and troubleshooting technical issues.
- I also utilized website analytics to monitor performance, form submissions and user behaviour.

## Education

Bachelor of Science in Computer Science

University of Tirana

Oct 2018 - 2021
